I am a resident of Elgin, one of the diverse communities known collectively as the Mountain Empire. There are many important reasons for Sulphur Springs Valley Electrical Cooperative to conduct an independent feasibility study to address the reliability and connectivity issues in our community. Please order SSVEC to conduct such a study as part of their rate increase because we are concerned that our cooperative dollars are not being sent in a fiscally responsible manner. My additional personal reasons for this request include (choose the ones that are important to you: protect the environment, move towards renewable energy, etc).

Dear Mr. Blair,

I implore you to get this project up and running tout de suite.

Please know that there are a higher number of residents in favor of this project going forward than this NIMBY group that feels they speak for all of Sonoita... which by the way, they don't. Sonoita was without power for

approx. two hours today, and to have to wait for another year to get this project going is unacceptable.

Must SSVEC abide by what the ACC has handed down?

What are your options to negate their decision?

Sincerely,
